

Dear Club

Espergærde January 2023.

PLAY WITH YOUR HEART... PLAY WITH YONEX!

In this crazy Corona time, when all badminton has been closed down, many probably are more than happy that all is now getting close to normal getting into the halls again and get on with the daily training and not least the team tournament on a regular basis.

Yonex is a leading brand in Badminton and tennis and the only brand with own factories in Japan and Taiwan producing and quality controlling the products. Besides the fact of our own factories the key word within Yonex on all areas is "QUALITY".

We hope you will take your time to look at your club's shuttle and clothing supplier for the coming season.

Yonex is just now ready for the coming season, with a new clothing program and a wide range of balls.

If the existing club contract and the purchase of badminton is an item on the spring general meeting, then we would like to encourage all clubs to look at next year's budget and start the dialogue, already now.

As most clubs talk about, there are fewer people to handle the growing workload... but, by collaborating with Yonex, many things can be solved quickly, flexibly and with professional help.

Among other things, we can offer:

Yonex club wear

Again, this year there are new clothing collections from Yonex. From today until 1 March, there is free choice, regarding the choice of design, model, and color. On 1 March, Yonex will place the first orders with our suppliers, in order to guarantee delivery of your clothing, by August - when it all starts for most.

Yonex club portal

Again, for the coming season, Yonex offers clubs the option of their own portal, where a page with club clothing can be tailored for the club's own members so they can order and pay via log-in.

Setting up this portal is a mutual agreement between the club and Yonex.

Yonex shuttlecocks

It is an economically sound solution to choose shuttlecocks from Yonex. We have the total ball program for all levels, and we deliver balls that have the best prerequisites to satisfy all club members. Our experience is the key word for long life, measured from the start until you discard the ball, and thus a good economic

solution. This means we have balls with great reuse value, and this should not be underestimated when choosing balls.

The New Badminton on the market.

Again, for the coming season, Yonex continues to work with their new badminton ball on the market.

It's called Aristo Liga+, A ball we would recommend clubs to test. It is aimed at a wide group of players, both senior/youth and exercisers.

Yonex premium purchase

Yonex offers the option of help with prize purchases at a discount, either delivered as a gift card or with attractive prizes. Prizes that fall into good soil and can be used by most people....

Yonex A-Boards

Yonex has new Yonex A-boards. This means that your club can now buy and acquire A-boards for its own use and place them around the hall, behind the pitch or between the pitches. They cost EUR 27,- per PCS. Excel. VAT.

Yonex clothing in stock

Yonex always has leftover clothing and other items in stock that might be of interest to your club. Make an appointment and feel free to come by and see it. We would like to make you special price , especially when buying larger quantities.

Yonex Peter Gade Academy....

In connection with a collaboration, new opportunities will be created that only Yonex can offer, for the club's youth players and young seniors at the right level.

Go to <https://www.petergade.com/en> and read more about the options and the conditions.

With the hope that some of the above can be of interest to you, we look forward to hearing from you.

With kind regards and wishes for a good badminton autumn.

Scansport A/S
